

Pharmacists' Patient Care Process Evaluation Form

Each section will be scored based on the criteria in the rubric, and the total score will determine the student's final score for this assignment.

1. Collect

Criteria	Fully Meets Expectations (4)	Moderately Meets Expectations (3)	Minimally Meets Expectations (2)	Unsatisfactory (1)
Collection of Information	Collects all relevant patient data	Collects most relevant patient data	Collects some relevant patient data	Relevant patient data is inaccurate or not collected

Collect Score: ____ / 4

2. Assess

Criteria	Fully Meets Expectations (4)	Moderately Meets Expectations (3)	Minimally Meets Expectations (2)	Unsatisfactory (1)
Identification of Drug-Related Problems	Identifies all relevant drug-related problems	Identifies most relevant drug-related problems	Identifies some drug-related problems	Drug-related problems are inaccurate or not identified
Clinical Reasoning and Evidence	Demonstrates strong clinical reasoning and supports assessments with evidence-based resources and clinical guidelines	Supports assessments with adequate evidence but may not fully incorporate clinical guidelines or relevant research	Limited use of evidence to support assessments; reasoning lacks clarity or depth in addressing therapeutic problems	Provides little to no evidence or rationale for therapy assessments, making the evaluation unclear or unsupported

Assess Score: ____ / 8

3. Plan

Criteria	Fully Meets Expectations (4)	Moderately Meets Expectations (3)	Minimally Meets Expectations (2)	Unsatisfactory (1)
Care Plan Recommendations and Individualization	Care plan recommendations are fully accurate and tailored to the patient's needs, preferences, and social determinants of health	Care plan recommendations are mostly accurate and tailored to the patient's needs, preferences, and social determinants of health	Some care plan recommendations are accurate and tailored to the patient's needs, preferences, and social determinants of health	Care plan recommendations are not accurate or tailored to the patient's needs, preferences, or social determinants of health
Prioritization	All goals are appropriately prioritized	Most goals are appropriately prioritized	Some goals are appropriately prioritized	Goals are not prioritized or are unrealistic

Criteria	Fully Meets Expectations (4)	Moderately Meets Expectations (3)	Minimally Meets Expectations (2)	Unsatisfactory (1)
Monitoring & Follow Up	All appropriate monitoring parameters and follow up are included	Most monitoring parameters and follow up are included	Some monitoring parameters and/or follow up are included	Monitoring parameters and/or follow up are inaccurate or not included

Plan Score: ____ / 12

4. Protocols

Criteria	Fully Meets Expectations (4)	Moderately Meets Expectations (3)	Minimally Meets Expectations (2)	Unsatisfactory (1)
Adherence to site protocols, policies, guidelines	Follows all relevant site protocols, policies, and/or guidelines	Follows most relevant site protocols, policies, and/or guidelines	Follows some relevant site protocols, policies, and/or guidelines	Does not follow relevant site protocols, policies, and/or guidelines

Protocols Score: ____ / 4

5. Documentation

Criteria	Fully Meets Expectations (4)	Moderately Meets Expectations (3)	Minimally Meets Expectations (2)	Unsatisfactory (1)
Documentation	All documentation is clear, concise, and organized	Most documentation is clear, concise, and organized	Some documentation is clear, concise, and organized	Documentation is not clear, concise, or organized

Documentation Score: ____ / 4

6. Reflection and Self-Assessment

Criteria	Fully Meets Expectations (4)	Moderately Meets Expectations (3)	Minimally Meets Expectations (2)	Unsatisfactory (1)
Insightfulness	Reflects deeply on the experience, providing a thorough evaluation of strengths, weaknesses, and areas for growth	Provides a reasonable reflection with some analysis of strengths and areas for improvement	Reflection lacks depth or clear insight into personal development and learning outcomes	Reflection is superficial or absent, showing little self-awareness or understanding of the experience

Reflection & Self-Assessment Score: ____ / 4
